RWH Myers Professionals Help You Achieve Rapid Resolution

We know what business interruption costs you, literally.

Our accomplished professionals know what matters to businesses facing losses—a fair, timely claim resolution. We're driven to connect with each other and our clients to get the job done. We provide extensive loss accounting services spanning a broad range of insurance issues exclusively to policyholders and their captive insurance companies. These services include claim preparation and loss analysis in the following areas:

- Business Interruption across all industry segments
- Property Damage, Extra Expense and Builder's Risk
- Construction audits
- Product Recall and Product Liability
- Fidelity / Employee Dishonesty
- Commercial disputes, litigation support and Mass Tort damages quantification

We also provide Business Interruption Values and Exposure analysis:

- Ratable Business Interruption Values
- Location BI Values
- Maximum Foreseeable Loss (MFL) and Probable Maximum Loss (PML) computations
- Interdependency analysis
- Extra Expense limits analysis and Contingent BI risk assessments

ProClaim Software: Powering all of your business interruption calculations.

Our proprietary claims software, ProClaim, provides a comprehensive set of tools that analyze, organize, summarize and present financial details covering all aspects of losses and claims. It's quick and powerful. Developed by Bill Myers, this leading-edge

software helps our accountants quickly and accurately develop the analysis and reports needed to resolve your claim.

ProClaims data management — efficient, accurate, paperless reporting.

MyClaim: Customizable, secure and a whole lot more.

Our innovative MyClaim portal makes tracking and managing your claim easy. Build contact lists, assign responsibilities, monitor timetables, calculate PD and BI loss estimates and track your claim status with our easy, always-accessible online tool.

Remember, keeping everyone informed, included and on the same page can help expedite your claim.

With MyClaim you control your claim, not the other way around.

BI Benchmarking: Compare value calculations to industry averages.

BI Benchmarking provides general industry averages for informational purposes. All you need are your annual net sales and your industry's North American Industrial Coding System (NAICS) identification number. This tool, in conjunction with a

professional consultation, ensures you have the information you need to compare your BI values with industry averages.

BI Benchmarking — another way to help you understand BI exposures and values.
